## TASK NEW PRODUCTS

As you are aware we are in the field of manufacturing Customized Multigauging Systems for process inspection for more than 3 decade & are pleased to inform that our systems are in regular use in the various applications of Automobile, Bearing, Hydraulics, Defence & Automotive Ancillaries.

In last 5 years industries in our country have upgraded manufacturing technologies in view of the global demand in all the above sectors & are using very fast manufacturing techniques for increasing productivity.

In keeping with the demand of fast, reliable, operator friendly with human error elimination need of the Multigauging system have also given demand for “AUTOMATIC GAUGING SYSTEM” along with material handling.

In keeping with this trend we are pleased to inform you that we have increase our product range to include such systems & share with you the products for your kind reference.

And many more such applications / customised applications as per customer demand.

We request you if you have any such requirement we look forward to receive your valuable enquiry for the same.
