Transmission Shim Selection System for Preload & Backlash Confirmation

In last few years industries in our country have upgraded manufacturing technologies in view of the global demand in all sectors & are using very fast manufacturing techniques for increasing productivity.

In keeping with the demand of fast, reliable, operator friendly with human error elimination need of the Multigauging system have also given demand for “AUTOMATIC GAUGING SYSTEM” along with material handling.

We are pleased to inform you that we have increase our product range to include such systems & first time in India we have indigenously developed Transmission Shim Selection System for Preload & Backlash Confirmation.

The system is very operator friendly in line with gauging & material handling, all operator fatigue & error, are completely eliminated & the system is designed to operate as per production tag time.

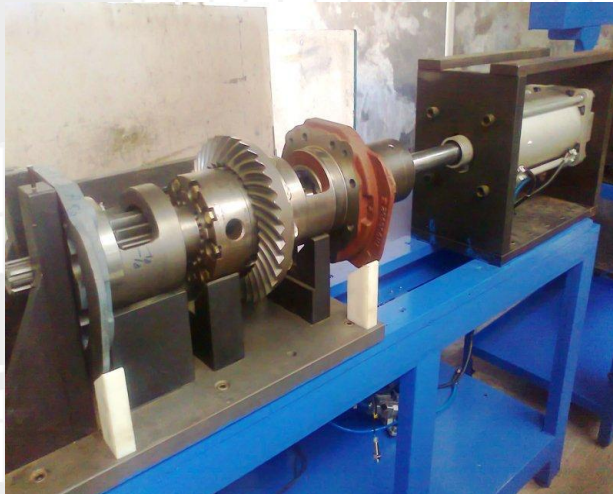

Enclosed is the PDF for your reference.

Please visit our website for the video presentation www.taskgauges.in

Thanking you & looking forward for your positive response.
